

# Assignment-5(KBTU Informer)

Create an application for KBTU(informer).Consider it as a mini project.

Use multiple MVC of any type that you prefer. Application must work in any device including iPad. Visit the KBTU's official website(<https://kbtu.edu.kz/en/>) and think of making the mobile version of it. You don't need to parse the data from website, just use the static data. This assignment will be evaluated by 2 major criteria(DSIGN, COMPLETENESS). Make some research to come up with design style you want and to make your app good-looking. Here is the examples of informations that can be in your app: News, Faculties, About us, Gallery, Events etc.

Any extra features will be rewarded (Parsing data from website, Cool animations, Beautiful design etc).

**DESIGN IS IMPORTANT!**

Deadline is 12.03.2021
